

# Wordpress Media Folder Galleries

Firstly, you can find default settings for galleries in the Dashboard, under: Settings->WP Media Folder->Gallery

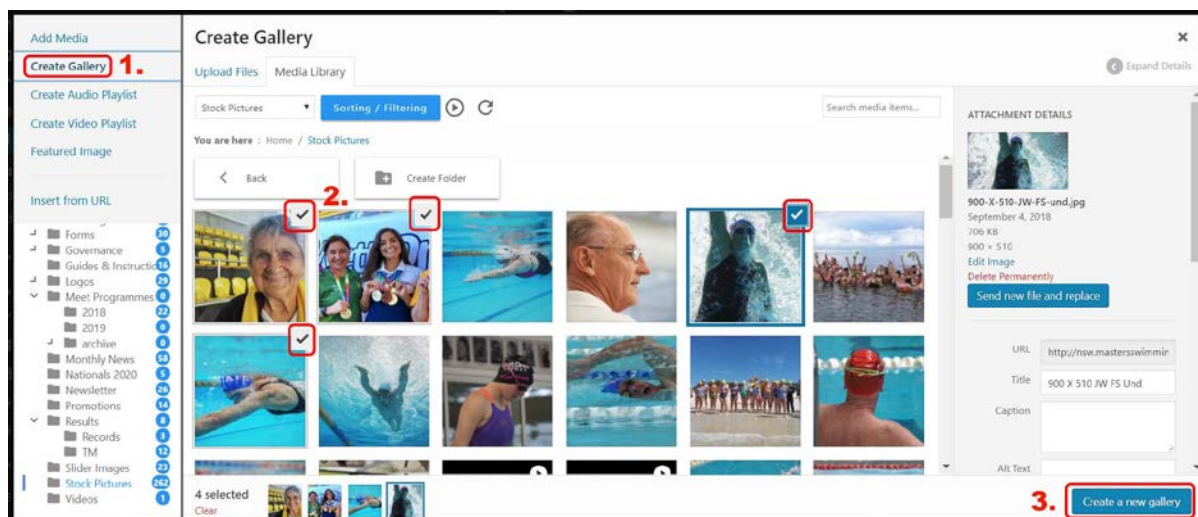

To create a Gallery, go to the page where you want to place it, put the cursor where you want it to go, and click the  button.

This will take you to the Media Library.

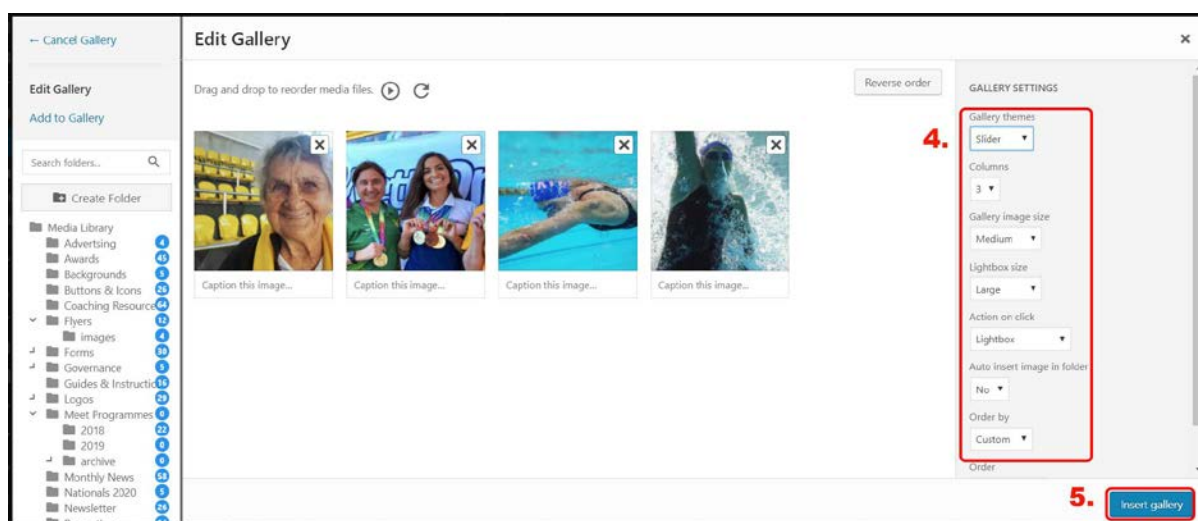

In Media Library, select the folder where your images reside.

If you want to add all photos in the folder click on the “Create a gallery from folder” button at bottom right of screen, or if you want to select particular photos to include in a gallery:

1. select “Create Gallery” at top left of screen.
2. Select each image to be included
3. Click on the “Create a new gallery” button at bottom right of screen

4. Make any changes to the default gallery settings in right-hand sidebar
5. Click on the “Insert Gallery” button at bottom right of screen.

Save, or “Update” the page and then view page to see how it looks.
